
SC-900T00-AC Microsoft Security, Compliance, and Identity Fundamentals

Overview

Course Duration: 1 Day

About This Course

This course provides foundational level knowledge on security, compliance, and identity concepts and related cloud-based Microsoft solutions.

Audience Profile

The audience for this course is looking to familiarize themselves with the fundamentals of security, compliance, and identity (SCI) across cloud-based and related Microsoft services. The content for this course aligns to the SC-900 exam objective domain. Candidates should be familiar with Microsoft Azure and Microsoft 365 and understand how Microsoft security, compliance, and identity solutions can span across these solution areas to provide a holistic and end-to-end solution.
